

# Case Packaging Systems to Meet Your Needs

COMPACKER designs and manufactures quality case packaging equipment and systems tailored to meet your specific job requirements. There are Compacker systems for erecting, loading and sealing corrugated cases, trays and wrap-arounds. Each of them are backed by over 50 years of packaging machinery experience and is built to stay on line day-after-day, year-after-year.

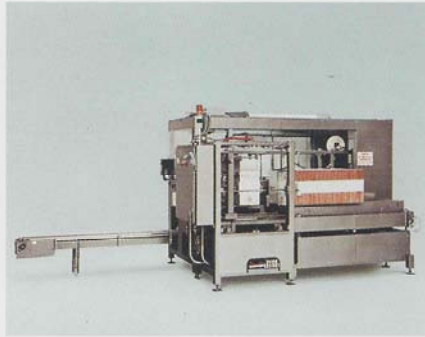

Compacker equipment is used internationally to package medical, personal care, consumer, food and industrial products. All of our case packaging systems feature tubular steel construction, electrical controls with PLC logic, large capacity magazine, handcrank adjustment to a range of sizes and accumulator/loaders for most products.
